

# THE DELUXE Mentorship

**The Deluxe Mentorship** is for VIP clients that want to work with me at the closest level, which means I'll fully play in your team as the expert and coach. We are in this together, I will know your business inside out, and brainstorm, explore and **EXECUTE** ideas with you.

You will uplevel your mindset, your offers and your income to absolute soul alignment. The more fun you have, the more money you make. So we're not only covering business and money. This will massively transform your level of self-care, abundance, your relationships and your daily habits.

The more certainty you have in yourself, your offers, the results you bring into your clients' lives and your price point, the easier daily cash flow will show up in your life.

And what this is really about, isn't the money. It's about **IMPACT**. About creating a Freedom Lifestyle where YOU get to design every single day of your life based on your own rules.

## MY COACHING STYLE:

Coaching with me is a combination of two "kinds of coaching".

### 1) NLP COACHING

I am a Master NLP Coach, Certified Hypnotherapist, Transformational Coach and Solution-Focused Coach, with 5 years of coaching experience and a massive bullshit alert.

This side of coaching is different from Mentoring or Consulting.

I am the trusted voice that

- calls you out
- challenges you
- has your best interests at heart.
- holds you accountable
- makes you grow, and

I am loving and cheerful, but at the same time will hold you accountable for your boundaries and your integrity.

If you're not yet sure if I'm the right coach for your next investment in yourself and your business, please join one of my courses first or check out my free content.

## 2) HANDS ON BUSINESS SUPPORT

I fully play in your team as the expert and coach. We are in this together, I will know your business inside out, and brainstorm, explore and EXECUTE ideas with you.

I am not working as a Consultant, which means I will never tell you what you SHOULD be doing (and I see many coaches doing this, whereas this is actually called Consulting), because YOU are the CEO, leader and decision maker in your business and I will always EMPOWER you to fully step into this role and responsibility.

However, I am your trusted voice for everything business related, have no limits when it comes to sharing EVERYTHING I know and believe and give you exclusive behind the scenes insides from my own business. There are no taboos, you can ask me anything.

### WHAT WE'LL COVER:

I don't believe in a 4 month blueprint that fits every single client. I believe in individual coaching and mentoring. So we're going to cover what YOU need to work through to unfold your fullest potential, break through your income ceiling and get you into the badass success mindset that will make you crush your goals.

It's usually a combination of leveling up your mindset and what you deem as "normal", creating energetic alignment when it comes to your offers and how you run your business, and becoming the kind of person that takes massive focused action whilst dropping the self doubt.
